EAGLECRAFT DIFFERENCE

CONSTRUCTION

Custom, high quality, commercial grade construction with heavy gauge aluminum construction methods

- Each Welder/Fabricator is Canadian Welding Bureau certified in aluminum welding
- Constructed to ABYC standards (where applicable)

BESPOKE EXPERIENCE

Custom designed to meet your needs with our "in house" design team

- Designed to be the ultimate cruiser, fishing machine or multi purpose adventure vessel unique to you
- Your choice of finishes , colors, and equipment
- Experience of working with our dedicated and skilled team to create and build your ultimate vessel

DESIGN

Shares design heritage with our regarded commercial vessel designs with safety, performance, strength, & durability in mind

- Several layout options available all with centerline queen size berth with separate shower and head
- 3 berth layout with additional head available
- Excellent and predictable seakeeping characteristics with exceptional performance
- Designed for twin diesel stern drive with SeaKeeper and generator available
- Sound mitigation and insulation materials used throughout for enhanced interior environment
- Diesel Hydronic heat system with defrost system and hot water capability
