FEATURES

The 43' EagleCraft Patrol Vessel is a part of the Response Vessel Class . The Response Class vessels are designed to meet your specific mission requirements and specifications. The Response Class Patrol vessel design can utilize v drive inboard, jet pump drives, or surface drive propulsion systems depending on application and mission. The Response Class Patrol Vessels are design for multi-mission use, including the following:

- Ensuring the safety and security of port facilities and waterways.
- Escorting deep sea shipping.
- Vessel interception.
- Gathering, manipulating and storing information and intelligence.
- Monitoring environmental pollution.
- Assist partner agencies and stakeholders.
- VIP and internal tours.
- Boarding and working in close proximity to deep-sea vessels at anchor and underway.
- Search and Rescue.
- Environmental Sciences.
- Transport up to 12 passengers.
- Provide pilot transportation.
